Am I the only one who keeps getting recommended TW Clickbait nonstop?

Empire

Every time I look up total war on YouTube (in particular historical total war games like Empire and Medieval) I almost always get Clickbait videos like "Hey guys look at this INSANE thing in X game!", "Top 10 reasons why the next thing is gonna EXPLODE your mind!", "I discover this INCREDIBLE thing in a 10 year old game you didn't know about!", "This NEW 60 year old campaign is INCREDIBLE", "This mod SHOCKED my wife's boyfriend (gone wrong)"

When I look into the video content is just some random generic guys voice talking over gameplay footage for 10 minutes saying little to nothing of importance or just repeating endless praises or "speculating" about the future of total war by pulling sh*t out from his arse.
